COMPOUNDS

COMPLETE SOLUTION FOR DETAILERS AND REFINISHING

Rapid Cut Compound - Step 1

This product has the most aggressive cut so will prominently be used for jobs with more surface abrasion and perfect for removing 1500 grit sanding marks. Best application is with our Phoenix yellow foam buff pad.

CUT: 9/10 GLOSS: 8/10

Medium Cut Compound - Step 2

Designed for those jobs that need a less aggressive cut and only require a medium cut also providing great polishing attributes and leaves little swirl marks. Use Phoenix orange foam pad.

CUT: 5/10 GLOSS: 9/10

THERE ARE TWO CHOICES FOR STEP 3

Machine Glaze Compound - Step 3 Option 1

Great for removing compounding swirl marks, a very low-cut compound with excellent gloss finish. Use Phoenix white foam pad application.

CUT: 3/10 GLOSS: 9/10

Glaze Wax Final Finish Compound - Step 3 Option 2

Ideal for removing ultrafine swirl marks from previously compounded areas, creates a deep high gloss finish and designed as a finishing compound glaze wax. Best application is with Phoenix black foam pad.

CUT: 1/10 GLOSS: 10/10
