RANGE

KITS AND SETS

Phoenix painters kits are complete sets of essential tools for painting. They include paint brushes, roller frames, roller covers, trays, and more. Convenient and reliable, these kits are perfect for professionals and DIY enthusiasts, providing everything needed for successful painting projects.

PAINT TRAYS

Phoenix painters trays are durable and easy to clean, making it a reliable choice for both professionals and DIY painters.

RADIATOR BRUSHES

Phonic Radiators brushes offer a convenient solution for painting hard-to-reach places. With their offset shaped timber handle and long handle design, these brushes allow for easy access to tight spots. The stainless steel ferrule ensures durability and secure bristle attachment. The tapered synthetic filament bristles provide smooth and precise application. Additionally, Phonic Radiators brushes are easy to clean, making maintenance a breeze. Whether you're painting radiators or other challenging areas, these brushes offer a reliable and efficient tool for achieving professional results.

ECONOMY BRUSHES

The Phoenix economy range of paint brushes is an affordable choice for various painting projects. Designed with DIY enthusiasts in mind, these brushes offer great value without compromising on quality. They are suitable for both acrylic and enamel paints, making them versatile for different applications. The economy brushes are a great all-around option, suitable for a wide range of painting tasks. Additionally, they are easy to clean, ensuring hassle-free maintenance. Whether you're working on small touch-ups or larger painting projects, the Phoenix economy range of paint brushes provides a cost-effective and reliable solution.

PLATINUM BRUSH RANGE

Phoenix Platinum Brush range: Trade quality brushes with nylon polyester blend filament for control, stainless steel ferrule, reduced bristle loss, and high-quality tapering for smooth application. Includes sash cutters. Ideal for professionals and meticulous DIYers.

SUPERCOAT BRUSH RANGE

The Phoenix Supercoat range offers versatile paint brushes suitable for all types of paints. With a comfortable grip, these brushes ensure ease of use and provide superior, even coverage. They are great for various painting tasks and exhibit excellent all-around performance. The range also includes angle cutters, providing additional flexibility for different painting angles and corners. The Phoenix Supercoat range combines value and quality, making it an ideal choice for both professionals and DIY enthusiasts seeking reliable brushes for their painting projects.

SPRAY GUNS

Designed for the automotive refinishing market, Phoenix Spray Guns deliver outstanding performance and reliability. Engineered with advanced atomization technology, these guns provide flawless, professional finishes. The range includes options tailored for basecoats, clearcoats, and primers, ensuring compatibility across all stages of the refinishing process. Durable construction and ergonomic design make Phoenix Spray Guns the go-to choice for painters seeking precision, efficiency, and comfort.

BUFF PADS AND COMPOUNDS

Our Buffing Pads Range is designed to meet the diverse needs of professional detailers and auto refinishing experts. Whether for cutting, polishing, or finishing, these pads deliver exceptional performance and durability across various surfaces. Paired with Phoenix Quantum Compounds, they provide a complete solution for achieving high-quality results. With a selection of textures and aggressiveness levels, they ensure precise outcomes for every step of the detailing process.

BUCKETS AND PAINT POTS

Phoenix offers a range of buckets and painters pots that are trusted by professionals in the painting industry for their quality and functionality. Phoenix buckets are designed with durability in mind, constructed from sturdy materials that can withstand the rigors of paint mixing, carrying, and cleaning. These buckets are available in various sizes.

PAINTERS ACCESSORIES

Phoenix offers a comprehensive range of accessories designed to complement various painting and decorating tasks. The Phoenix accessories range includes a wide selection of tools, caulk guns, knives and scrapers, as well as painters tools. Phoenix tools are crafted with precision and durability in mind, ensuring optimal performance and reliability.

CANVAS AND PLASTIC DROP SHEETS

Phoenix offers a range of canvas and plastic drop sheets that are essential for protecting surfaces during painting and renovation projects. The canvas drop sheets from Phoenix are made from durable and heavyweight materials, providing excellent protection against paint splatters, spills, and debris. They are tear-resistant and reusable, making them a cost-effective choice for long-term use.

The canvas drop sheets also have absorbent properties, helping to prevent paint from seeping through and damaging underlying surfaces. On the other hand, the plastic drop sheets from Phoenix are lightweight and waterproof, providing an effective barrier against paint and other liquids. They are ideal for covering furniture, floors, and other areas that require reliable protection.

RATCHETS AND TIE DOWNS

The Phoenix range of ratchet and tie-down straps offers durable, reliable, and high-capacity solutions for securing loads during transport. With various lengths and weight capacities, these straps ensure that items are safely held in place, providing peace of mind for both professional and personal use.

ROLLER FRAMES

Phoenix painters roller frames are designed to provide stability, control, and durability during painting projects. These roller frames are compatible with standard paint roller covers and offer a secure grip for smooth and even application of paint.

ROLLER COVERS

Phoenix roller covers are designed to provide excellent paint coverage and a smooth finish during painting projects. These roller covers are available in different nap lengths, allowing users to choose the appropriate cover for their specific painting needs.
