

# CANVAS & PLASTIC DROP SHEETS

## FOR PAINTING & RENOVATION PROJECTS

Phoenix offers a range of canvas and plastic drop sheets that are essential for protecting surfaces during painting and renovation projects. The canvas drop sheets from Phoenix are made from durable and heavyweight materials, providing excellent protection against paint splatters, spills, and debris. They are tear-resistant and reusable, making them a cost-effective choice for long-term use. The canvas drop sheets also have absorbent properties, helping to prevent paint from seeping through and damaging underlying surfaces. On the other hand, the plastic drop sheets from Phoenix are lightweight and waterproof, providing an effective barrier against paint and other liquids. They are ideal for covering furniture, floors, and other areas that require reliable protection.
