

# RAIN-X

**ENHANCE VISIBILITY & DRIVING SAFETY**

Rain-X is a well-known brand offering a range of products designed to enhance visibility and improve driving safety during inclement weather conditions. Rain-X products are specifically formulated to repel rain, snow, and sleet from windshields, windows, and other automotive surfaces. The product line includes windshield treatments, wiper blades, glass cleaners, and water repellent sprays.

Rain-X windshield treatments create a hydrophobic barrier that causes water to bead up and roll off, improving visibility and reducing the need for constant wiper usage. The wiper blades are designed to provide streak-free and noise-free wiping, ensuring clear vision even in heavy rain. Rain-X glass cleaners effectively remove dirt, grime, and other contaminants, leaving behind a clean and streak-free surface. Additionally, Rain-X water repellent sprays can be applied to various surfaces, including side mirrors and headlights, to improve water shedding and visibility. Rain-X products are trusted by drivers worldwide to help maintain clear visibility and enhance driving safety, ensuring a clearer view even in challenging weather conditions.

## RANGE OF PRODUCTS

### • 5071268
